

## Report of Covid-19 Relief work

### Second Round in Bettiah.

The mission began with a survey, to trace out or to locate the most unfortunate ones, the most unlucky and deprived ones, the most forgotten and left out ones. The survey needed time and authentic measure to obtain genuine result. After real hard work we succeeded in tracing real needy ones. Every place we surveyed. We found this was a larger group than the previous ones. But we stopped at 10-15 maximum.

Survey in village.

Under such terrible time government of India has launched two generous schemes to save people from dying of hunger. 1. Free rations, 2. Free gas to all suffering, for 4 months, to be given on their B.P.L. (below poverty level) card. But these people cannot have this help, they do not have B.P.L. card even. Second scheme every one having B.P.L. card and Bank account in their name, can get RS-1000 from government. These people never had any surplus to put in the Bank, so no Bank account. So we are justified in saying during this time of Covid-19 and lockdown these are most unfortunate and most suffering people. Thanks that we have distributed the dry food packet to 250 needy people in Bettiah. For them fate is more powerful than God. "After giving them birth God leaves them in the hands of fate," this is their believe so suffering and poverty is their destiny. But this act of generous charity assures them God takes care of us through generous people like you donors, so please accept their innocent thanks. Kindly reach this thanks of people to all donors.

Saskia and all our donors, you will be surprised to know, there is one more group of people who want to say they appreciate what you do during this time of Corona. One businessman, who supplies us food materials, to join with you, he supply us things at cost prize, no gain for himself. One more thing he asked their staff to work extra hour free of cost in supplying relief materials to us. Third thing admirable is that before we could place our order he anticipated the need and brought the stuff from outside to save us from the raise in price. How great it is!!

Everyone is good, because God is good. As you are good and you do great things. Because the love for all of is great and under the shadow of this great love, we also look great, so big thanks to you and all.

Note-1. Government is high alert corona has taken very serious turn, spreading very fast. There is possibility of flood very soon.

2. Total lockdown is in Bihar till 31 July.

3. All schools closed, children at home.

4. One request please allows me to provide one mobile to Mausam and Muskan Kumari because they are unable to attend their all online classes.

With much love.

Please see some photograph about dry food distribution ----

Preparing food packets.

Food packets ready for distribution.

Ready to move to Sanichari village

Signing the register before receiving food packet

Village – Dumari Mahnwa

Village – Chubetola

Village- singachapar

Viilage- lohariya
